

Techniques for Creating Living Shorelines in Northwest Florida

Apalachicola, FL

May 26-27, 2010

9 a.m. -5 p.m. EDT (Wed)

9 a.m. -12 p.m. EDT (Thu)

Apalachicola Community Center – City Hall
1 Bay Avenue

Pensacola, FL

June 8, 2010

9:00 a.m. -5:00 p.m. CDT

Gulf Power Auditorium
One Energy Place

Living shorelines use plants and other natural materials to stabilize the shoreline, minimize coastal erosion, and maintain coastal processes while enhancing the natural shoreline habitat for the benefit of property owners as well as fish and other wildlife.

Workshop Highlights

- Detailed case studies of living shoreline projects in Northwest Florida
- Field excursion to local living shoreline projects
- Guided discussion of the permitting process and funding opportunities for living shorelines in Florida

Who Should Attend?
